

Proven Experts In **PHILIPS SIEMENS MILabs**

Feel comfortable and confident in our trained and seasoned engineers. We meet all your service needs.

Our long-term relationships with practices and hospitals spans nearly two decades. Productivity, profitability and competitive efficiency is the result. Our service and parts inventory support superior high quality imaging.

What's more, clients tell us that we provide responsive service excellence over the original manufacturer, whose support on older equipment is non-existent as they focus only on new sales.

We offer 38 years of nuclear imaging engineering service

- High technology software upgrades for better image information and quality.
- Full line of peripherals.
- Distinguished field service engineers.
- Complete inventory of system-tested parts. (Including hard to find parts).
- Full parts & labor warranty.
- Service contracts that save money.
- Superior service to original manufacturer.
